Welcome to the official website of 2026 11th International Conference on Materials Technology and Applications (ICMTA 2026). The conference will be held from October 28~30, 2026 in Tokyo, Japan, providing great opportunity for materials technology and applications participants to meet researchers in other related fields as well.

ICMTA 2026 would be an excellent international conference for sharing knowledge and results in Materials Technology and Applications. Its aim to provide a platform to the researchers and practitioners from both academia as well as industry to meet the share cutting-edge development in the field. The primary goal of the conference is to exchange, share and distribute the latest research and theories from our international community.

Call for paper topics include, but are not limited to:

Advanced Materials' Characterization

Advanced Materials' Manufacturing and Processing

All classes of materials: metals, ceramics, polymers and composites

Civil Engineering Applications

Electronic, Magnetic and Photonic Materials

Energy Production, Transport and Storage

Industrial Applications

Materials for Different Applications

**Call for Special Sessions too.*

Medical Applications

Nanomaterials

Nanotechnologies
