updated

Welcome to the official website of 2024 9th International Conference on Materials Technology and Applications (ICMTA 2024). The conference will be held from November 6~8, 2024 in Osaka, Japan, providing great opportunity for materials technology and applications participants to meet researchers in other related fields as well.

ICMTA 2024 would be an excellent international conference for sharing knowledge and results in Materials Technology and Applications. Its aim to provide a platform to the researchers and practitioners from both academia as well as industry to meet the share cutting-edge development in the field. The primary goal of the conference is to exchange, share and distribute the latest research and theories from our international community.

Call for paper topics include, but are not limited to:

Advanced Materials' Characterization	Medical Applications
Advanced Materials' Manufacturing and Processing	Nanomaterials
All classes of materials: metals, ceramics, polymers and composites	Nanotechnologies
Civil Engineering Applications	Phase Diagrams Modeling
Electronic, Magnetic and Photonic Materials	Processing Modeling
Energy Production, Transport and Storage	Recycling and Sustainability
Industrial Applications	Smart Materials
Materials for Different Applications	Surface Science and Engineering
	Transport and Mechanical Engineering Applications
	Trends in Product Development
